- Recognized for the Insulated Gate Bipolar Transistor (IGBT)
- Awarded 1 million Euro prize

An aerial photograph of the North Carolina State University campus. The image shows a mix of traditional brick buildings and modern structures, including a prominent white clock tower in the center. The campus is surrounded by lush green trees, and a road with a few cars is visible in the lower-left corner. A red banner with white text is overlaid at the top of the image.

Data Informed Actions

711 Buildings

We manage them all.

Life Cycle of a Building

Capital Improvement Planning

Construction Highlights

Highlights from the Hill Library Renovation.

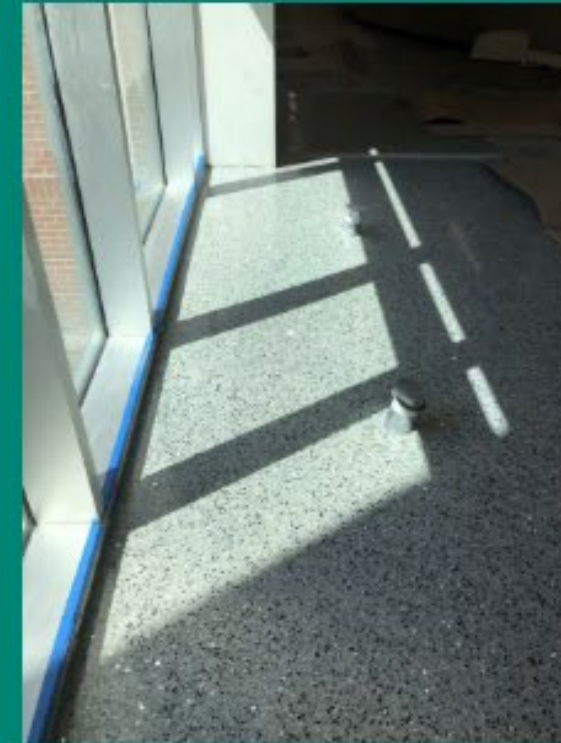

The view from a construction scaffold: wood paneling is installed over a structural beam on the ceiling of the third floor.

Heavy-duty floor polishing equipment waits at the ready to smooth and polish the terrazzo floors.

Coils of network cabling in the Game Space are ready to be routed to telecom panels.

Sunlight spills over the newly laid terrazzo flooring on the third floor.
