* Tuition and fee rates included on this schedule are based on rates approved by the Board of Governors in March 2018. G.S.116-11(7) requires that the Board of Governors set tuition and required fees at the institutions, not inconsistent with actions of the General Assembly.
 ** The MBA, Master of Science in Computer Science, and Veterinary Medicine D.V.M. rates are three representative examples of the advanced programs currently charging premium tuition. Other programs are: Veterinary Graduate, Master of Accounting, 5-yr Bachelor of Architecture, Master of Global Innovation Management (MGIM), Master of Architecture, Master of Graphic Design (MGD), Master of Landscape Architecture (MLA), Master of Art and Design (MAD), Master of Industrial Design (MID), Master of Science in Advanced Analytics, Master of Financial Mathematics, Master of Science in Computer Engineering, Master of Science in Electrical Engineering, Master of Science in Electric Power Systems Engineering, Master of Science in Computer Networking (ECE) & (CSC), Master of Computer Science, Master of Science in Chemical Engineering, Biomedical Engineering MS Train, and Doctorate of Design.

NC State's Centennial Campus is a unique, highly successful public/private research campus where students, faculty, government and industry partners collaborate to advance North Carolina and the nation.

Since it was first conceived by bipartisan state and university leaders more than 30 years ago, Centennial Campus has become a differentiator for NC State and an important economic driver for Raleigh, the Triangle Region and North Carolina.

Through the continued development of Centennial Campus, NC State seeks to enhance and support a vibrant innovation ecosystem that advances the university's academic, research and outreach mission, and contributes meaningfully to the greater economic health of the region and state.

Three Primary Objectives:

Develop a unique and iconic innovation district by creating a diverse network of entrepreneurial spaces that draw upon and enhance NC State's brand and contribute to regional and state economic development.

Leverage public/private partnerships to establish and expand collaboration among private sector partners and university students, faculty and staff and to support the long-term health and growth of NC State.

Create a sense of place by harnessing the appeal of privately developed residential, service retail and other amenities to forge a distinctive presence on Centennial Campus that celebrates the innovative spirit of NC State.

<https://prosperity.centennial.ncsu.edu/>

Centennial's innovative environment provides industry partners unique opportunities to work with some of the nation's top faculty and researchers, allows students unsurpassed hands-on experience working with leading companies, and propels the state's economic prosperity.

Building on the successful model that has established Centennial as the nation's premier public/private partnership research campus, further development of Centennial will be funded almost entirely by private investments.

Centennial Campus will continue to bring new, unsurpassed opportunities for students and faculty, provide outstanding benefits for government and industry, and benefit the Triangle and statewide communities through a highly-prepared workforce; new companies, products and jobs; and innovative technologies that haven't yet been created.

WEXFORD

SCIENCE+TECHNOLOGY

NC State has selected Wexford Science & Technology LLC to begin negotiations for the next phase of public-private development on Centennial Campus. The 32-acre site sits on the northeastern end of the campus near the Engineering II and Golden Leaf Biomanufacturing Training and Education Center buildings.

Wexford works exclusively with universities, academic medical centers and research institutions to envision, develop and program highly activated environments that combine research, discovery, entrepreneurial activity and corporate engagement.

Wexford Engagement

- Meeting with Deans
- Meeting with Department Heads
- Meeting with Faculty

"We see the next phase of development as an important step toward fulfilling their vision by creating more jobs, educating more students who are better prepared for the workforce, and launching more products, technologies and ultimately companies that are born from the collaboration of industry partners with our world-class researchers."

~ Randy Woodson, Chancellor for NC State
