<sup>1</sup> Arrows indicate mean ratings that differ by 5 percent or more of the response scale (i.e., a difference of at least 0.25). Up arrows indicate that the mean rating of the group in the first column is notably higher than that of the group in the second column, whereas down arrows indicate that the mean of the group in the first column is lower than that of the group in the second column. If no arrow is present, differences in mean ratings are not considered large enough to be meaningful.
